

$$\frac{1}{3} + \frac{2}{3} = ?$$

Mental Calculation

Division – Remainder When Divided By 5

Find the remainder when $7429 \div 5$.

STRATEGY

$9 \div 5 = 1 \text{ R } 4$ [divide the last digit of the number by 5 to get the remainder]

The remainder when $7429 \div 5$ is 4.

Do these division mentally.

Find the remainder when

1 $8524 \div 5$

R =

6 $2892 \div 5$

R =

2 $6933 \div 5$

R =

7 $9976 \div 5$

R =

3 $7008 \div 5$

R =

8 $1846 \div 5$

R =

4 $5807 \div 5$

R =

9 $7943 \div 5$

R =

5 $3349 \div 5$

R =

10 $4386 \div 5$

R =

1 4 2 3 3 3 4 2 5 4 6 2 7 1 8 1 9 3 10 1
