

My Favourite Dessert

I like to eat jelly. It is soft and sweet. It also comes in many different colours. Some types of jelly are filled with fruit. I like those that have strawberries and peaches in them.

My aunt makes jelly for me when I visit her every Sunday. She has jelly moulds in the shapes of cats, dogs, birds and flowers. I like the jelly she makes because it comes in many different shapes.

My aunt can also make big trays of jelly. She knows how to make a red jelly that looks like Elmo. I want to learn how to make jelly from my aunt.
