

We can now find the number of Australian stamps:

1 u  $\rightarrow$  86 stamps

3 u  $\rightarrow$  ? stamps

$$86 \times 3 = 258$$

Lastly, we can find how many more Australian stamps than American stamps he had:

Australian stamps  $\rightarrow$  258

American stamps  $\rightarrow$  86

$$258 - 86 = 172$$

He had 172 more Australian stamps than American stamps.
