PASSING ON FROM PARENTS TO YOUNG

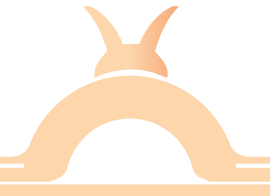

There are two different kinds of characteristics: those that you are born with, and those that you learn or obtain over time. Traits that you have from birth are called inherited traits. Traits that you learn or develop during your life are called acquired traits.

For each of the traits listed below, write down if the trait is 'acquired' or 'inherited'.

1. Driving a car : _____
2. Skin colour : _____
3. Reading : _____
4. Blood type : _____
5. Shape of your nose : _____
6. Speaking French : _____
7. Pierced ears : _____
8. Freckles : _____
9. Height : _____
10. Using a computer : _____
11. Eye colour : _____
